

This Week We Learned

- Math – Students are working on using fact families to show how multiplication and division are related. Keep practicing math facts, including both multiplication and division.
- Language Arts – We're identifying future-tense verbs and combining sentences. Students are also working on an animal legend story and picture.
- Science – We finished presenting our planet presentations. We completed Unit D with a jeopardy review game and the chapter review.
- Spelling – "Vowel Sound in *lawn*"
- Reading – Students are working on reading comprehension, summarizing, fluency, and vocabulary daily in their literature circles. Each group meets daily to discuss prior chapters read.
- Religion – Students learned how to use books, chapters, and verses to find information in the Bible. We also read Scripture verses and discussed the form of prayer found; petition, intercession, thanksgiving, etc.
- Art – Snow Covered Forest
