## THINGS WE HAVE BEEN WORKING ON

I can't tell you how beautiful my room looks with all of the circus trains! What a great job everyone did. I am so impressed. We had such a great time at Circus World on Wednesday. The kids were so excited and I heard many of them say, "This is the best field trip I have ever been on!" I saw lots of cotton candy smiles. I think we may have picked up a clown or two on the bus ride home.

In Reading we finished our More Adventures Unit. We took our progress test and an end of the level test. The students did a great job with these. It was a very successful year with the Superkids!

This week in Math we took another timed test. I can tell that they have been practicing. We will continue to take these. We may even take them twice a week for the next two weeks. I really want them all to pass! We took the test on our subtraction chapter. Please look in the Friday Folders for the test.

In Religion we have been going over prayers. Some of your children may have come home with a note a Thursday with some prayers on it. I circled the prayers that your child needs to practice. I have had two parents help me this year with the prayer chart. The students have to master all the prayers on the sheet that was sent home in the beginning of the year. With the help of Mrs. Koss and Mrs. Kramar, we have been testing the students throughout the year. If you didn't get a paper in your child's folder with prayers on it, then they have passed all of the prayers.

In Science we talked about the different layers in the pond (muddy bottom, open water, and surface). We also compared plants that can be found in streams and plants that can be found in ponds. The students made pop up books about beavers. We talked about where beavers build their dams.

Thanks,

Kristin
