Mrs. Lawler's Classroom Newsletter

What's going on in the classroom?

Math: We started chapter one this week. I know as second graders the students started the third grade math book and have already done some of the first few chapters. With that said we are still going to do the chapters they covered last year, but we might not do every lesson based on the skills they show me they can do. I want to really make sure they know this third grade material before moving on to new material.

Social Studies: Our first unit of study is Maps & Globes. The students are working out of a packet in their binder and will also be working with the maps and globes within the classroom. The students will learn about directions, map keys, map scales, the different types of maps, the hemispheres, and more. They will even make their own map towards the end of the unit!

Language Arts: Our first unit is on sentences. Sentence fragments, sentence punctuation, subjects/predicates, are all things they will learn about!

Welcome Back!

I would like to welcome everyone back to another great school year!! We have had a great first week of school and are looking forward to the rest of the year. Third grade is a big year and I hope everyone is up to the challenge. My newsletter will be sent out via e-mail every other week. I hope you find this to be an informational tool in knowing what is going on in 3rd grade!
